C-06 RESTORATION VENDOR PROFILE • DRYING, IAQ, CONTAINMENT & CLEANING OEMS

Abatement Technologies

HEPA Air Scrubbers, Negative-Air Machines & Healthcare Containment OEM

Field	Primary-Source Verified Detail (Snapshot 2026-11-21)
Canonical Entity	Abatement Technologies
Census Sector	Drying, IAQ, Containment & Cleaning OEMs
Headquarters	Fort Erie, ON / Suwanee, GA
Ownership Class	Independent Operating Vendor
Official Website	https://abatement.com/usa/about-us
Primary Verification Source	https://abatement.com/usa/about-us

Executive Field Summary

Premier manufacturer of hospital-grade HEPA air scrubbers (PREDATOR / PAS series), asbestos/mold negative-air machines, and ICRA Class IV/V healthcare containment modules.

Core Capabilities & Restoration Workflow Fit

True 99.97% @ 0.3-micron DOP-tested HEPA filtration units, AIRE GUARDIAN healthcare mobile containment carts, duct-cleaning vacuums, and commercial abatement negative-pressure systems.

Corporate Ownership & M&A Verification Note

Independent family-owned North American manufacturer founded in 1985 by the Harber family (roots back to 1946 Harber Manufacturing in Fort Erie, Ontario).

Procurement Due-Diligence & Field Watch-Outs

Verify HEPA DOP certification requirements for hospital/ICRA bids, budget OEM replacement HEPA/carbon filter lead times, and confirm UL/CSA electrical specs for occupied healthcare facilities.

Ecosystem & Software / Distribution Integrations

Hardware OEM sold direct and through specialty environmental/restoration distributors (Aramsco, Abatix, Inline Distributing).

Practitioner Frequently Asked Questions

Q: Why do healthcare and asbestos abatement contractors specify Abatement Technologies?
Abatement Technologies builds individually tested HEPA negative-air scrubbers and rigid ICRA containment carts engineered to pass hospital infection-control inspections.

Q: Is Abatement Technologies owned by a private equity conglomerate?
No; Abatement Technologies remains an independent Harber family-owned manufacturer headquartered in Fort Erie, Ontario with US operations in Suwanee, Georgia.

Q: What products are core to water and mold restoration crews?
The PREDATOR 750 and PAS series portable HEPA air scrubbers, carbon odor filters, and negative-air ducting accessories.
