Executive Field Summary

All-in-one cloud restoration management software uniting CRM, job tracking, Albi Drylog 2.0 moisture documentation, Albi Capture floor plans, AI workflow automation, and Albi Pay invoicing.

Core Capabilities & Restoration Workflow Fit

End-to-end mitigation and reconstruction project tracking, native mobile photo/drying logs, automated referral CRM, equipment inventory tracking, QuickBooks Online sync, and built-in payments.

Corporate Ownership & M&A Verification Note

Independent privately held software company (Albiware, LLC) built specifically for property restoration operators.

Procurement Due-Diligence & Field Watch-Outs

Evaluate data-migration timelines from legacy DASH or spreadsheets, verify Albi Capture floor-plan pricing per scan, and test QuickBooks/Sage job-costing synchronization with your controller.

Ecosystem & Software / Distribution Integrations

Verisk Xactimate/XactAnalysis, QuickBooks Online, CompanyCam, Encircle, DocuSketch, Matterport, and Phoenix DryLINK.

Practitioner Frequently Asked Questions

Q: How does Albiware position itself against legacy restoration ERPs like Cotality DASH?
Albiware emphasizes faster onboarding, modern mobile UX for field technicians, and native built-in tools (Drylog 2.0, Capture, CRM, Pay) to reduce third-party point-solution sprawl.

Q: Does Albiware handle both water mitigation and reconstruction jobs?
Yes; Albiware manages emergency mitigation work orders, equipment/moisture tracking, and multi-phase rebuild scheduling inside a unified project file.

Q: Is Albiware owned by a carrier or TPA?
No; Albiware, LLC operates independently without corporate ownership by an insurance carrier or managed-repair TPA.
