C-06 RESTORATION VENDOR PROFILE • RESTORATION ERP, FIELD OPS & TELEMETRY

Canam Systems (PSA)

Proven Systems (PSA) Restoration Job Management & Accounting ERP

Field	Primary-Source Verified Detail (Snapshot 2026-11-21)
Canonical Entity	Canam Systems (PSA)
Census Sector	Restoration ERP, Field Ops & Telemetry
Headquarters	Oakville, ON / North America
Ownership Class	Independent Operating Vendor
Official Website	https://canamsys.com/
Primary Verification Source	https://canamsys.com/

Executive Field Summary

Long-standing restoration ERP suite (Proven Jobs, Proven Accounting, Proven OnSite, Proven CRM) delivering tightly integrated job-costing, general-ledger accounting, and Xactimate workflow sync.

Core Capabilities & Restoration Workflow Fit

Native restoration accounting (GL, AP/AR, WIP/percentage-of-completion job costing), Proven OnSite mobile field app, XactAnalysis dispatch integration, equipment tracking, and franchise reporting.

Corporate Ownership & M&A Verification Note

Independent privately held restoration software vendor (Canam Systems, creator of Proven Systems / PSA).

Procurement Due-Diligence & Field Watch-Outs

Compare total implementation effort of Proven Accounting's native GL against QuickBooks-integrated ERPs; ideal for mid-to-large contractors needing strict WIP financial controls.

Ecosystem & Software / Distribution Integrations

Verisk Xactimate/XactAnalysis, Proven Accounting / QuickBooks bridges, Matterport, Encircle, and major TPA compliance portals.

Practitioner Frequently Asked Questions

Q: What distinguishes Canam Systems (PSA) from lighter restoration CRMs?
Canam Systems offers a full native general-ledger accounting module (Proven Accounting) purpose-built for restoration job costing and work-in-progress (WIP) financials.

Q: Does PSA integrate with Verisk XactAnalysis?
Yes; Proven Jobs syncs assignments, notes, and milestone compliance data directly with XactAnalysis.

Q: What is Proven OnSite?
Proven OnSite is Canam Systems' mobile field companion app for technician time tracking, photos, forms, and drying documentation.
