C-06 RESTORATION VENDOR PROFILE • ESTIMATING, CLAIMS & 3D CAPTURE SOFTWARE

CompanyCam

Jobsite Photo Documentation, Checklists & Contractor Estimating SaaS

Field	Primary-Source Verified Detail (Snapshot 2026-11-21)
Canonical Entity	CompanyCam
Census Sector	Estimating, Claims & 3D Capture Software
Headquarters	Lincoln, NE
Ownership Class	Independent Operating Vendor
Official Website	https://companycam.com/
Primary Verification Source	https://companycam.com/press

Executive Field Summary

GPS-stamped jobsite photo timeline, crew checklist, and client-sharing app widely deployed across water, fire, and roofing restoration crews for rapid visual proof of loss.

Core Capabilities & Restoration Workflow Fit

Automatic GPS/timestamped project feeds, before-and-after photo reports, voice-to-text field notes, custom inspection checklists, and expanding estimating/payment tools following its March 2026 Beam Finance acquisition.

Corporate Ownership & M&A Verification Note

Independent privately held SaaS company. Announced the acquisition of Beam Finance Inc. on March 2, 2026 to add AI-assisted estimating, invoicing, and payments.

Procurement Due-Diligence & Field Watch-Outs

Compare CompanyCam's per-user seat scaling and checklist automation against restoration-specific drying apps; confirm whether crews need dedicated S500 psychrometric tables via an integrated ERP.

Ecosystem & Software / Distribution Integrations

JobNimbus, Cotality DASH, Albiware, Xcelerate, Encircle workflows, Hover, EagleView, and 50+ contractor CRM/accounting integrations.

Practitioner Frequently Asked Questions

Q: What changed for CompanyCam in 2026?
On March 2, 2026, CompanyCam announced its acquisition of Beam Finance Inc., expanding beyond photo timelines into AI-assisted estimating, document signing, and contractor payments.

Q: Why do restoration crews pair CompanyCam with an estimating suite?
CompanyCam excels at zero-friction photo capture and subcontractor accountability, feeding clean visual documentation into Xactimate, Symbility, or CRM job records.

Q: Are photos organized automatically by jobsite address?
Yes; CompanyCam uses GPS coordinates to anchor every photo to a specific property project, reducing misfiled claim photos across high-volume storm events.
