C-06 RESTORATION VENDOR PROFILE • ESTIMATING, CLAIMS & 3D CAPTURE SOFTWARE

EagleView

High-Resolution Aerial Imagery & Roof/Exterior Measurement Reports

Field	Primary-Source Verified Detail (Snapshot 2026-11-21)
Canonical Entity	EagleView
Census Sector	Estimating, Claims & 3D Capture Software
Headquarters	Bellevue, WA
Ownership Class	Independent Operating Vendor
Official Website	https://www.eagleview.com/
Primary Verification Source	https://www.eagleview.com/

Executive Field Summary

High-resolution aerial imagery and certified roof, wall, and solar measurement report provider anchored across carrier claims desks and exterior restoration contractors.

Core Capabilities & Restoration Workflow Fit

1-inch GSD oblique/orthogonal aerial imagery, certified PremiumReport roof pitch/facet/waste diagrams, post-catastrophe aerial change detection, and Eagleview Horizon AI property analytics.

Corporate Ownership & M&A Verification Note

Independent operating geospatial technology company backed by private equity investors (Vista Equity Partners and Clearlake Capital).

Procurement Due-Diligence & Field Watch-Outs

Review enterprise volume commitment tiers, pre-order rush fees during CAT storms, and confirm ESX sketch compatibility with your carrier's preferred estimating version.

Ecosystem & Software / Distribution Integrations

Verisk Xactimate/XactAnalysis, Cotality Symbility, JobNimbus, CompanyCam, AccuLynx, and major property-carrier claim systems.

Practitioner Frequently Asked Questions

Q: Why do insurance carriers accept EagleView roof measurements on supplements?
EagleView's high-resolution oblique aerial imagery provides standardized pitch, ridge, valley, and waste calculations that minimize field measurement disputes between adjusters and contractors.

Q: When is EagleView preferred over ladder-assist physical inspections?
EagleView delivers pre-arrival roof geometry safely and quickly for pricing and material ordering, though hail bruising and functional damage verification still require physical or drone inspection.

Q: Does EagleView provide post-storm catastrophe imagery?
Yes; EagleView flies rapid post-event aerial collections after major hurricanes, tornadoes, and windstorms to support remote triage and severity scoring.
