C-06 RESTORATION VENDOR PROFILE • RESTORATION ERP, FIELD OPS & TELEMETRY

# KnowHow

Restoration SOP Knowledge Infrastructure & AI Field Guidance App

| Field | Primary-Source Verified Detail (Snapshot 2026-11-21) |
|---|---|
| **Canonical Entity** | KnowHow |
| **Census Sector** | Restoration ERP, Field Ops & Telemetry |
| **Headquarters** | Calgary, AB |
| **Ownership Class** | Independent Operating Vendor |
| **Official Website** | https://tryknowhow.com/ |
| **Primary Verification Source** | https://tryknowhow.com/ |

## Executive Field Summary

Mobile SOP hub and AI field assistant turning company playbooks, IICRC protocols, and franchise standards into searchable step-by-step checklists and multilingual on-site guidance.

## Core Capabilities & Restoration Workflow Fit

AI-powered SOP Q&A ('Howie'), pre-built restoration process templates, technician onboarding and training verification, multilingual translation for bilingual crews, and compliance audit logs.

## Corporate Ownership & M&A Verification Note

Independent privately held SaaS company focused on workforce SOP management and AI field guidance for restoration and trades companies.

## Procurement Due-Diligence & Field Watch-Outs

Confirm whether your operations team has bandwidth to tailor KnowHow's template library to your specific TPA SLAs and accounting rules during the first 60 days of rollout.

## Ecosystem & Software / Distribution Integrations

Complements core ERPs (DASH, Albiware, Xcelerate, PSA) via SSO, mobile deep links, and API/LMS workflows.

## Practitioner Frequently Asked Questions

**Q: How do restoration companies use KnowHow on active jobsites?**
Field technicians query KnowHow from their phone for exact containment setup, moisture-log rules, or TPA documentation steps—cutting repetitive phone calls to project managers.

**Q: Does KnowHow support multilingual field crews?**
Yes; KnowHow translates standard operating procedures on demand so English- and Spanish-speaking crews follow identical quality protocols.

**Q: Does KnowHow replace job management software?**
No; KnowHow serves as the operational knowledge and training layer alongside your ERP, estimating tool, and accounting system.
