Fewer Claims, Bigger Tickets: What Verisk’s Q2 Numbers Mean for Restorers

Canonical Web Version: https://restorationintel.com/verisk-q2-2026-fewer-claims-higher-severity/

Direct Answer: Verisk’s Q2 2026 U.S. property data shows claim assignments at a multi-year low (1.24 million) while average severity tracks toward the highest quarterly level in recent years — fewer files, bigger tickets, with non-CAT volume thinning fastest. Verisk’s latest quarterly property report, released the week of September.

Field Benchmark & Decision Matrix

Operational Stage	Field Focus in This Guide	Documentation Requirement	Verification Gate
1. The numbers	Verisk’s Q2 2026 U.S. property data shows claim assignments at a multi-year low.	Timestamped photos, measurements & scope notes	Cross-check against primary standard prior to submission
2. The thinning is uneven — and it’s the	Verisk’s latest quarterly property report, released the week of September 22, 2026.	Timestamped photos, measurements & scope notes	Cross-check against primary standard prior to submission
3. Severity: watch where this number goes	At the same time, Verisk says “average severity is tracking toward the highest.	Timestamped photos, measurements & scope notes	Cross-check against primary standard prior to submission
4. Your costs are rising too — and	Fewer claims. Bigger tickets. That’s the whole story — and the details underneath it.	Timestamped photos, measurements & scope notes	Cross-check against primary standard prior to submission

Practitioner Operational Takeaways

• Confirm scope boundaries and loss classification for: Fewer Claims, Bigger Tickets: What Verisk’s Q2 Numbers Mean for.

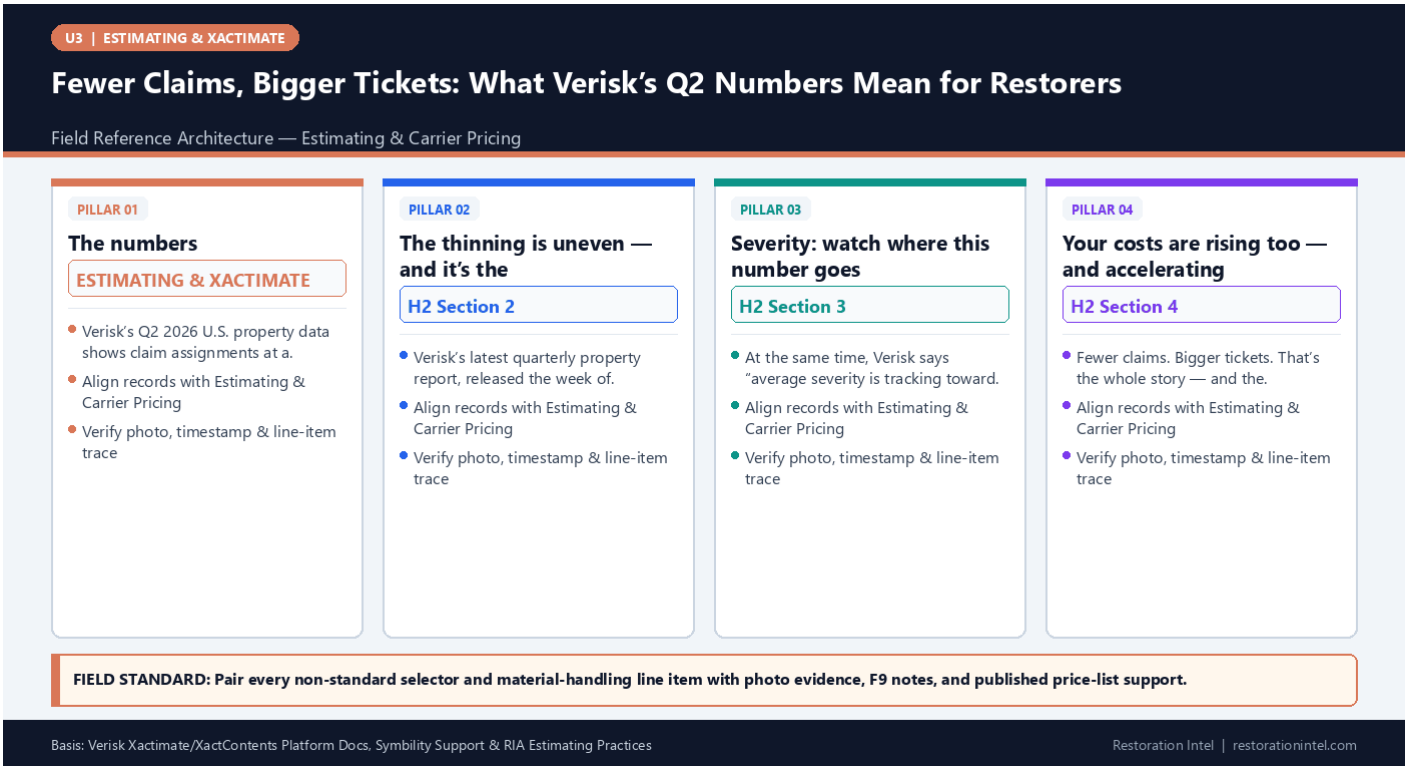

• Capture timestamped field photos, measurements, and serial/assembly notes before mobilization or tear-out.

• Tie every line item or operational recommendation to primary references (Verisk Xactimate Estimating Platform, Verisk Property Claims Solutions).

• Verify internal cross-links and preserve all customer intake/compliance forms intact on the canonical page.

• Export and attach the Print-First PDF field brief and verify the sibling Markdown twin (.md) resolves HTTP 200.
