C-06 RESTORATION VENDOR PROFILE • DRYING, IAQ, CONTAINMENT & CLEANING OEMS

Rotobrush International

Air Duct Cleaning, Negative-Air & IAQ Remediation Equipment OEM

Field	Primary-Source Verified Detail (Snapshot 2026-11-21)
Canonical Entity	Rotobrush International
Census Sector	Drying, IAQ, Containment & Cleaning OEMs
Headquarters	Grapevine, TX
Ownership Class	Independent Operating Vendor
Official Website	https://www.rotobrush.com/
Primary Verification Source	https://www.rotobrush.com/

Executive Field Summary

Manufacturer of portable brush-and-vacuum HVAC duct cleaning machines (BrushBeast DR), negative-air collection systems (BlowBeast), and video duct-inspection equipment for fire, mold, and IAQ restoration.

Core Capabilities & Restoration Workflow Fit

BrushBeast rotary air-duct cleaning units, BlowBeast negative-air machines, RotoVision video inspection cameras, antimicrobial duct fogging applicators, and insulation removal vacuums.

Corporate Ownership & M&A Verification Note

Independent privately held equipment manufacturer (Rotobrush International LLC, Grapevine, TX).

Procurement Due-Diligence & Field Watch-Outs

Evaluate NADCA ACR compliance standards for post-fire HVAC cleaning claims and compare brush-vacuum vs. high-CFM negative-air truck/portable systems for commercial flex vs. sheet-metal ductwork.

Ecosystem & Software / Distribution Integrations

Standalone mechanical IAQ equipment; pairs with EPA-registered duct sanitizers (Benefect, Fiberlock, Anabec) and pre/post inspection photo apps.

Practitioner Frequently Asked Questions

Q: When do property restoration firms deploy Rotobrush equipment?
After structure fires, heavy mold remediation, or post-construction dust events when HVAC ductwork requires mechanical agitation, HEPA vacuum capture, and NADCA-aligned photo verification.

Q: Does Rotobrush manufacture negative-air machines in addition to brush systems?
Yes; Rotobrush offers both its BrushBeast rotary systems and its BlowBeast / R5000 negative-air machines.

Q: What documentation supports insurance reimbursement for duct cleaning?
Pre- and post-cleaning internal duct camera video (e.g., RotoVision) paired with soot/particulate swabs demonstrating loss-related HVAC contamination.
