Census Sector	Restoration ERP, Field Ops & Telemetry
Headquarters	Clearwater, FL
Ownership Class	Independent Operating Vendor
Official Website	https://www.xlrestorationsoftware.com/
Primary Verification Source	https://www.xlrestorationsoftware.com/

Executive Field Summary

Restoration-native job management ERP designed for independent contractors, multi-location groups, and CAT disaster responders needing standardized compliance workflows, CRM, and real-time KPI dashboards.

Core Capabilities & Restoration Workflow Fit

Customizable workflow checklists by loss type (water, fire, mold, CAT), CRM referral management, equipment tracking, mobile technician documentation, and role-based executive dashboards.

Corporate Ownership & M&A Verification Note

Independent privately held software company (Faise, LLC d/b/a Xcelerate), founded by former restoration operators.

Procurement Due-Diligence & Field Watch-Outs

Test custom SLA alert escalation for TPA compliance deadlines, confirm accounting integration depth (QuickBooks Online vs. Desktop), and validate multi-branch reporting rollups.

Ecosystem & Software / Distribution Integrations

Verisk XactAnalysis, Encircle, CompanyCam, DocuSketch, QuickBooks, and open REST/webhook integrations.

Practitioner Frequently Asked Questions

Q: Who builds Xcelerate Restoration Software?
Xcelerate is operated independently by Faise, LLC out of Clearwater, Florida, and was originally architected by practicing restoration business owners.

Q: What sizes of restoration firms typically deploy Xcelerate?
Xcelerate serves single-office water/fire contractors scaling past spreadsheets as well as multi-location franchises and commercial catastrophe restoration teams.

Q: Does Xcelerate duplicate RIA directory listings?
In the raw RIA/R&R scan data, Xcelerate appeared twice under 'Xcelerate' and 'Xcelerate Restoration Software'; this census deduplicates both into one canonical profile.
